

ROSHAN DS

Full Stack Developer | Python Developer | Data Science Enthusiast

Bangalore, India | +91 6374753593 | roshands00270@gmail.com

[GitHub](#) — [LeetCode](#) — [GeeksforGeeks](#) — [LinkedIn](#)

SUMMARY

Aspiring Full Stack and Python Developer with strong foundations in Data Structures & Algorithms, Web Development, Data Science and Cybersecurity. Experienced in building web applications, performing data analysis and developing real-world software solutions using modern technologies.

EDUCATION

Sapthagiri NPS University, Bangalore

Bachelor's Degree in Data Science (Currently Pursuing 2nd Year – 4th Semester)

CGPA: 8.745

HSC: Amala Matric Higher Secondary School, Thuckalay (85%)

SSLC: Mother Theresa Higher Secondary School, Mylacode (80%)

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, HTML5, CSS3

Frontend: React.js, Responsive Web Design, Modern JavaScript

Backend: Django, Flask, FastAPI, REST APIs

Databases: SQL, SQLite, Supabase

Data Science: Pandas, NumPy, Matplotlib, Seaborn, EDA

DSA: Arrays, Linked Lists, Trees, Graphs, Dynamic Programming

Tools: Git, GitHub, VS Code, Postman, Jupyter Notebook, Arduino IDE

Cybersecurity: Ethical Hacking, OWASP Top 10, Web Security Testing

PROJECTS

Mythic Reverse

[Live Demo](#)

Developed a responsive full-stack web application with scalable architecture, frontend-backend integration and optimized user experience

SHRESHTA

[Live Demo](#)

Developed an agricultural jaggery e-commerce platform for product showcase, customer engagement and online business presence

111 International Spas

[Live Demo](#)

Designed and deployed a commercial website with modern UI, responsive layouts and user-friendly navigation

COVID-19 Data Analysis & Visualization Dashboard

[GitHub](#)

Performed exploratory data analysis and created interactive visualizations to generate insights from COVID-19 datasets using Python

Smart Air Quality Monitoring System

[GitHub](#)

Built an IoT-based monitoring system using ESP8266, MQ135 and DHT11 integrated with Python backend and machine learning concepts

ACHIEVEMENTS

- Solved 280+ DSA problems on LeetCode.
- Solved 120+ DSA problems on GeeksforGeeks.
- Created 150+ Python programming problems with solutions.

CYBERSECURITY

2 years of learning experience in Ethical Hacking, OWASP Top 10, Web Security Testing, SQL Injection, XSS and Penetration Testing fundamentals.
